

# Missouri Right to Life

**For Immediate Release:**

August 8, 2018

**For Further Information:**

Statewide: 573-635-5110

## **PRO-LIFE WORK LEADS TO VICTORY**

The following statement can be attributed to Steve Rupp, President of Missouri Right to Life:

Missouri Right to Life is extremely grateful for the pro-life victories in yesterday's elections and celebrates with the conservative, pro-life people of Missouri.

Pro-life people have waged a battle against Roe vs. Wade, since January 1973, when it was legislated by the U.S. Supreme Court. Throughout these election results, Missourians have stated that it is time to change course and move our nation forward with the truth and protection of the baby in the womb.

I want to thank every voter who voted for life in this primary! We have once again shown that Missouri is a pro-life state, and now we will turn our eyes to supporting the election of more pro-life voices in November and winning the U.S. Senate for life as well as maintain our pro-life super-majorities in our state house!

MRL PAC endorsed candidates in a total of 145 races statewide. Of those races, MRL PAC endorsed the winning candidate in 138 of those contests, making our success rate 95% in all races in which we were involved.

Although there were a few disappointments, MRL PAC will review these races and work towards success in the November general election. We are grateful that not one MRL PAC endorsed incumbent lost their seat.

MRL PAC extends our congratulations to all those who stood for life in their campaigns. Missouri has one of the largest pro-life legislative majorities in the nation and MRL PAC is proud to be a part of that. Pro-life voters will look to elect those in November who will fight valiantly for life in Missouri and Washington. Let us pray and work as we encourage the continued successful efforts for life across our state and nation.
